

The Hayfield Herald

Team Orange Sports Super Stars

We are so pleased to finally have sports day again and brilliant to have so many parents, grandparents and family members joining us. We decided to split the day into phases because we have so many children now and we didn't want to have to restrict the number of family members to fit on the field. It has worked out so well as it has meant that you can see the children and they are also not waiting around between activities and competing with children in their own phase too. The children have loved it and we have had so many lovely comments from parents as well – thank you. For sports day the children were set into different country teams and competed on a carousel of activities gaining points. We had some super clever Year 6 mathematicians live totalling through each session so that the results could be announced at the end. Thank you to all of you who joined us today, it was brilliant to see you all. Also thanks to Fiona and Sophie from TOPS for sorting the refreshments and a huge thank you to Miss Mulroy for organising such a superb event for us all despite the rain at the end!

Last week we had some more sports brilliance as Key Stage 2 attended an athletics event at KLV where they competed in a range of events against local schools. The children showed great teamwork and determination and did really well. LKS2 earned themselves the bronze medal for the whole event which has qualified them to take part in the county event at Moulton next week. Once again, big thanks to Miss Mulroy and to Mrs Nevett for taking the children to this event.

Reception have also been having their sports fix. Following on from our very first post-Covid parent event where Reception had a lovely Mother's Day craft session with their mums and grandmas last term, last week they had a fantastic Father's Day sports afternoon. It was great to see so many of you join us and share the sunshine and activities with the children. I had wondered why the Dads weren't joining in on the climbing frame until I went up and found out the children had told them they weren't allowed! Brilliant job by our fantastic Reception Team and another great event.

You may remember that before half term we took part in the Ogden Science Trust Science Fair. We are part of the Ogden Trusts local cluster who promote and support Science in schools. Mrs Hendry had organised the Science Fair and we had loads of fantastic entries. Last week in celebration we were really pleased to present the prizes to the winners, Amelie in Year 1 and Eloise in Year 5 – well done girls!!

This week we have received several boxes containing free books. It is a wonderful initiative to celebrate the Queen's Platinum Jubilee where every child will receive a special commemorative book. They are also hoping that they will promote reading and encourage everyone to take part in the summer reading challenge (at your local library) which we would also recommend. The books are really nice and will be a lovely keepsake from this special event. These will be sent home next week so look out for them!
