

# Spring 2018 Learning Experience

## Term 4 2018

We expect all children to read everyday. In addition to learning spellings and maths you may also wish to enrich their theme learning with other experiences. Here are some ideas of things you could do:

- Create a mask of your favourite predator
- Collect data about your family and friends favourite habitat and present it in a bar graph or pictogram
- Create a story that is set in your favourite habitat
- Make a habitat showing detail of where the animals live.
- Research Walter Tull, can you create a fact file about his life and why he is important to Northamptonshire?

Please feel free to explore your own ideas and your child's interests. This can be shown through research, using the internet (safely!), making books, posters, information leaflets, models etc. Visits to places related to the topic can also be brilliant ways to inspire learning, especially if they gather information, pictures and artefacts and share them back in class.

This homework is optional so you can do as little or as much as you like and there is no deadline so you can do pieces throughout the term and bring it in.

## Year 2 Extended Learning Homework Project Ideas
