

Our Vision for Hayfield Cross Church of England School

We are committed to a school with a Christian foundation where every child is valued and supported to be the very best they can be in both their academic and spiritual life. Our vision will guide our decisions and aspirations in five key areas:

Learning

Our children experience teaching which is consistently outstanding and provides them with opportunities to excel in all areas of the curriculum. Our distinctly Christian school provides a safe, stimulating environment where children are immersed in a broad and enriched curriculum and given the opportunities for them to flourish, realising their full potential.

Leadership

Our school will be driven by effective and inspirational governors and leaders at all levels. They are relentless in their pursuit of excellence and hold themselves and others to account to ensure the continued success of the school. Staff are well-skilled and committed to their own learning journey through continuous professional development.

Community

Reflecting our Christian foundation, Hayfield Cross will be enriched by its positive partnerships with all in its local and global community. As our local community grows around us we are committed to provide a centre of excellence in education as well as links to services and resources to support families within our school and local area.

Transition

Reception children will be nurtured through the first steps of their school voyage through strong links with all feeder settings ensuring a seamless and effective transition. When Year 6 children leave our school they will be confident, resilient and have the independence to be curious and courageous risk takers. Guided by a strong moral compass they will have the tools to succeed in the next stage of their education and beyond.

School Offer

Hayfield Cross is an inclusive school where everyone can succeed regardless of their needs or background. The school offers a variety of opportunities for children to explore wider interests such as music, the arts, culture and sports through a range of clubs and activities. Children who show an aptitude or particular interest in any area of the curriculum will be identified and encouraged through extended opportunities, supporting them to shine.
